

Hence for operational and planning needs during CP4, capability information should be obtained from the National Electronic Sectional Appendix

The diagram shows a proposed 110kV transmission line route. It starts at Findlay's GF (Up side) and runs through OHNS, Braidhurst Loops, and a section with poles 89 and 77. It then crosses a road and continues through a section with poles 5, 75, and 75. The route is labeled 'Sdgs' (Sagging) and 'UGL' (Underground Line). It then crosses a road and continues through a section with poles 15 and 15, labeled 'DGL' (Double Ground Line). The route ends at Coatbridge lines.
